

**21 July 2005**

**The European Community and its twenty-five Member States propose that:**

- i.** the IIM report recommends to the General Assemblies a renewal of the IIM process until July 2006;
- ii.** the further IIM process be financed essentially by any funding set aside in the 2006-07 Programme and Budget for the PCIPD;
- iii.** a sub-set of proposals should be considered during this process and this sub-set should be kept to a limited number, comprising those issues:
  - a.** which are "ripe for harvest", that is, on which provisional agreement could be reached most rapidly; or
  - b.** which need to be considered first to inform consideration of other proposals;
- iv.** the sub-set should include a cross section of the proposals submitted and that proposals 4, 6, 9, 10, 11, 13, 14, 16, 17, 18, 20 and 21 from the Chairman's original list satisfy the above criteria;
- v.** the remaining proposals would be placed on a list which would remain open; and
- vi.** the 2006 General Assemblies should consider the report of this renewed IIM process.
